Plug Rework conversion service

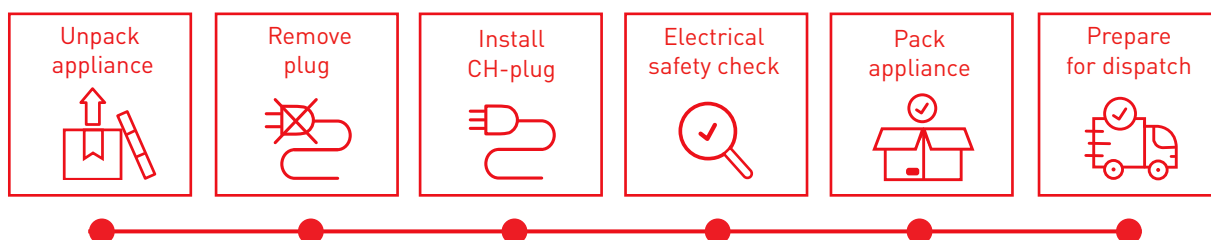

Your challenge

You want to sell electrical appliances authorised in Europe in Switzerland and need to convert them to the Swiss standard quickly and easily. The manufacturer's warranty should remain unchanged and safety for your customers should be guaranteed at all times.

Would you like to improve the existing protection standard from IP44 to IP55?

Our solution

You deliver your appliances to us in their original packaging. We take care of the conversion and make the appliances available for collection in their original packaging.

Customers who trust us:

BRAUN
Designed for what matters

DeLonghi

B/S/H/

KENWOOD

KitchenAid

PHILIPS

SEB
GROUPE

TELION
